

Alex Kim

****Senior Frontend Engineer****

alex.kim@example.com · (555) 987-6543 · Seattle, WA · [github.com/alexkim-fictional](#)

Summary

Frontend engineer with 5 years building accessible, performant React applications. Strong on design systems, type safety, and the boring-but-correct work that keeps production stable. Comfortable owning a feature from Figma to ship.

Experience

Senior Frontend Engineer — NovaCart

Seattle, WA · January 2023 – Present

- Rebuilt the storefront search UI in Next.js (App Router); reduced Largest Contentful Paint from 4.1s to 1.6s.
- Owned the in-house component library migration from Emotion to Tailwind + CVA; documented patterns adopted by 12 product teams.
- Drove WCAG 2.1 AA compliance work; closed 80+ accessibility issues identified by an external audit.
- Collaborated with design on a new checkout flow that lifted conversion 4.2% in A/B test.

Frontend Engineer — Acme Corp

Remote · September 2020 – December 2022

- Implemented the dashboard real-time updates using Server-Sent Events and React Query.
- Built end-to-end test suite (Playwright) covering 95% of critical user journeys.
- Introduced Storybook and visual regression testing; halved review cycle time on UI PRs.

Junior Frontend Developer — Helix Analytics

Boston, MA · July 2019 – August 2020

- Shipped first version of the public-facing marketing site (Gatsby, since migrated to Next.js).
- Wrote internal dashboards for the data team using D3 and React.

Education

****B.A. Cognitive Science**** — Brown University · 2015 – 2019
